FOUR MARRIED ITALIAN COUPLES ROB THE CRANE

SOPHIE'S PURSE IN PERIL OF

A daring highway robbery reeling the tremulous rails which ran from the foot of Virginia and sending them into the skies of this city this morning. In an instant, the robbers had made off with an estimated $500 worth of watches, gold rings, and sundry other valuables. The bandits, who were later captured by the police, had broken into the train as it was passing through the country at about 7:30 AM, and entered the car containing Mrs. Sophie P. Crane, a wealthy elderly woman. She was holding a purse containing $500 in cash, along with various jewels and other valuables. The robbers forced Mrs. Crane to hand over her purse, and then began to search the other passengers for more valuables. During the robbery, the train was passing through a remote area, making it difficult for the police to intervene. The robbers managed to escape with the purse, leaving behind Mrs. Crane, who was later able to alert the authorities. The police are currently searching for the bandits and hope to apprehend them soon. They are offering a reward for any information leading to the capture of the robbers. The public is asked to be vigilant and to report any suspicious activity to the police. The incident serves as a reminder of the importance of being cautious and vigilant when traveling, especially in remote areas. The police are also urging the public to be aware of their surroundings at all times and to keep their valuables secure.
